As founder of the wireless antenna concealment industry, STEALTH® Concealment Solutions, Inc. is the unsurpassed leader in the design, engineering and fabrication of innovative antenna concealment structures.

In 1992, STEALTH® Concealment Solutions, Inc. earned its reputation as the industry pioneer for wireless concealment. Since designing that first unique structure, a transmission-friendly sign that ensured a wireless antenna alongside a rural highway did not disrupt the beauty of its surroundings, STEALTH® has continued to lead industry innovation. Using its proprietary materials and patented designs, STEALTH® consistently delivers superior radio frequency (RF) transmission performance to its customers. Today, STEALTH® remains a preferred choice throughout the wireless industry.
